Queensland’s mineral, coal and petroleum operations and resources

Major mining operations and mineral resources

- **Metallic minerals (including underground construction)**
  - Copper, Lead, Zinc, Silver
  - Nickel, Cobalt
  - Gold, Silver
  - Molybdenum, Rhenium
  - Platinum Group Metals

- **Non-metallic minerals**
  - Apatite, Bentonite, Brick clay, Diatomite, Dolomite, Fluorite, Feldspar, Gallium, Gallium compounds, Garnet, Garnet compounds, Gold, Silver, Lead, Zinc, Copper, Nickel, Cobalt, Scandium, Tungsten, Tungsten compounds, Vanadium, Molybdenum, Silica sand, SiliCONE sand, Mineral sands, Bauxite, Kaolin, Kaolin compounds, Limestone, Limestone compounds, Magnetite, Quartz, Gypsum, Gypsum compounds, Bauxite

- **Metals**
  - Gold, Silver, Lead, Zinc, Copper, Nickel, Cobalt

- **Mineral sands**
  - Ilmenite, Feldspar, Apatite, Ilmenite Feldspar Apatite

- **Rare earths**
  - Rare earths

- **Miscellaneous**
  - Gemstones (Zeolite, Sapphire, Zeolite, Sapphire, Zeolite)
  - Sodium bicarbonate

- **Other resources**
  - Liquefied Natural Gas (LNG), Coal, Oil and Gas

- **Gold**
  - Gold

- **Silver**
  - Silver

- **Lead**
  - Lead

- **Zinc**
  - Zinc

- **Copper**
  - Copper

- **Coal**
  - Coal

Major coal and petroleum operations and resources

- **Coal (including underground construction)**
  - Coal mining region

- **Conventional petroleum**
  - Conventional petroleum

- **Coal seam gas**
  - Conventional petroleum

- **Oil state**
  - Oil

- **LNG**
  - LNG

- **Export Port**
  - Coal
  - Coal

- **Population centres**
  - Population centres

- **Other resources**
  - Late Paleozoic to Early Mesozoic basins
  - Mid Paleozoic Drummond Basin
  - Mid Paleozoic to Early Mesozoic basins
  - Mid Paleozoic to Early Mesozoic basins
  - Mid Paleozoic to Early Mesozoic basins
  - Mid Paleozoic to Early Mesozoic basins
